### PERSONAL PROFILE

A third-year Software Developer student at Norton University, seeking an internship to apply my growing knowledge of programming. Passionate about learning new technologies and gaining practical experience in software development. Actively seeking opportunities to apply my skills in real-world projects and contribute effectively to a professional team.

### WORK EXPERIENCE

#### Car Garage Assistant

*Self-Employed with Father | 2021- Present*

- Gained hands-on problem-solving experience troubleshooting and maintaining mechanical systems.
- Strengthened communication and customer service skills while explaining technical information to clients.
- Managed responsibilities effectively in a fast-paced environment, showcasing adaptability and teamwork.

### PROJECTS

#### Vehicle Renting System (C++ OOP)

- Create vehicle rental system using OOP in C++ with a modular and maintainable structure.

#### Employee Management System

*(Java, MySQL, JavaFX)*

- Create CRUD-based employee management system with JavaFX and MySQL, classifying employees as full-time or part-time.

#### Koi the Milk Tea App Clone (Flutter)

- Designed a basic clone of the Koi Milk Tea app, focusing on combining static and dynamic data.
